

## Suggest Change In Operating Tax Collection

OTTAWA, Jan. 5.—(CP)—A revenue department plan to establish 13 new district offices to improve income tax collection machinery and to provide better service to the taxpayer is still awaiting cabinet approval, it was learned yesterday.

The plan, submitted to the special committee on taxation during the recent session, calls for an increase of from 19 to 32 in the number of district offices and the closing of sub-offices in Brandon, Ont., Lethbridge, Alta., and Stratford, Ont.

New district offices would be established in Sydney, N.S., Campbellton, N.S., Kirkland Lake, Ont., Three Rivers, Que., Sherbrooke, Que., Sudbury Ont. and Kelowna, B.C. Sub-offices would be replaced by district offices in St. Catharines, Ont., Windsor, Ont., Kitchener, Ont., and Victoria, B.C.

In addition Montreal and Toronto would each have two district offices instead of one each at present.

District offices already in existence are at Charlottetown, Halifax, Saint John, Quebec, Montreal, Ottawa, Kingston, Belleville, Toronto, Hamilton, London, Fort William, Winnipeg, Regina, Saskatoon, Calgary, Edmonton, Vancouver, and Dawson.

Changes were proposed for either Manitoba or Saskatchewan. In Alberta, the sub-office at Lethbridge would be closed and a new district office would be opened at Kelowna, B.C. The sub-office at Victoria would be raised to a district office, Calgary would take over the area formerly served by Lethbridge.

The Kelowna office would serve the counties of Yale and Kootenay, now administered by Vancouver, Victoria, and Nanaimo, and Vancouver Island and the office in Vancouver would take over that city and surrounding territory.

**Gloria Swanson  
Can't Get Along  
On \$200 a Week**

NEW YORK, Jan. 5.—(AP)—Actress Gloria Swanson testified in court yesterday that she had to sell furniture and pawn jewelry to supplement her "only income," \$200 weekly temporary alimony.

Testifying in her state supreme court separation suit against her fifth husband, William Davey, she told Justice Morris Eder her husband made promises of \$2,000 and \$3,000 a month but that "I've never seen that kind of money."

He also promised her a yacht, she said, and showed her a yacht design, but she said the affair ended in an argument as to whether it would have a glass bathroom.

Davey's income was put at \$200,000 yearly by William F. McNulty, Mrs. Davey's counsel.

Davey testified that "at least 10 times" during the 54-day marriage he asked his wife to move from her Fifth Avenue apartment to his Park Avenue one.

**Stockyard Places  
Embargo on Hogs  
Because of Gilt**

SOUTH ST. PAUL, Minn., Jan. 5.—(AP)—The St. Paul Union Stockyard Company yesterday declared an embargo on hogs because "more hogs are being received than can be processed."

Receipts thus far this week total more than 100,000 of which 95,500 were salable.

The embargo affects hogs arriving by truck after 11:55 p.m. Friday and hogs loaded by railroads after 3 p.m. Saturday. After those times, the stockyard's statement said, no hogs will be accepted until 11:55 p.m. Jan. 8, and then when accompanied by permits issued by commission agencies.

**Pullman Company  
Sold to Combine**

PHILADELPHIA, Jan. 5.—(AP)—A special federal expedient court yesterday approved in a final decree sale of the sleeping service by Pullman, Inc. to a combine of American railroads for \$25,000,000.

The action followed Dec. 18 approval by the three-judge court of the railroad combine as "the war and obvious people to do the sleeping car business."

## Family Allowance Executives Meet in Ottawa

—National Film Board Photo

In the above photograph are the 12 top executives of the Family Allowances administration who met in Ottawa to discuss details of procedure in distributing over 18 million dollars worth of Family Allowances per month to 1,383,902 families in Canada. From left to right they are (standing): Colonel H. M. Jones of the Indian Affairs Branch of the Department of Mines and Resources who assists in the distribution of Family Allowances cheques to Indians and Eskimos; C. B. Howden, Regional Director of Family Allowances for Manitoba, Department of National Health and Welfare; J. J. McCurrane, Regional Director for Saskatchewan; R. B. Curry, National Director of Family Allowances; H. C. L. Gillman, Regional Director for Alberta; W. R. Bone, Regional Director for British Columbia; R. M. Brouseau, Registrar of Foreign Births and Acting Regional Director for the Yukon and Northwest Territories; (sitting): F. C. Jackson, Regional Director for Ontario; J. M. L. Lafrance, Regional Director for Quebec; A. Nicholson, Regional Director for Prince Edward Island; B. M. Stark, Regional Director for New Brunswick; and P. H. Stehelin, Regional Director for Nova Scotia.

## United Action On Wages Seen As Possibility

By JACK WILLIAMS

OTTAWA, Jan. 5.—(CP)—United action on wages by a large group of Canadian organized labor loomed as a possibility today with the disclosure of A. R. Mosher, president of the Canadian Congress of Labor, that consideration is being given by the congress to a wage conference.

Should such a conference be held and reach agreement it presumably would be the voice of the 300,000 members of CCL unions.

The policy of organized labor toward wages ranks as one of the biggest question marks in the present Canadian situation. That labor wants higher wages is to be taken for granted, but what steps it is prepared to take to gain higher wages is another question.

On the other side of the picture are the employers, who are concerned over the possibility of labor unrest upsetting conversion plans and of high wages disturbing the competitive position of Canadian products in export markets.

Disputes between Canadian unions and employers in the latter stages of the war centered more on wages. For example, the Ford Motor Co. strike at Windsor, which has sent time-loss figures as high as \$2 million for the first 11 months of 1945 according to far above comparative 1944 figures, was on the position of the union.

WHILE THERE is a growing under-the-surface agitation for new wage demands on the part of Canadian labor federal officials are trying to mould amendments to the wartime wage control order which would bring some measure of restraint.

**Calgary Student  
Is Selected As  
Rhodes Scholar**

OTTAWA, Jan. 5.—(CP)—D. R. Michener, Canadian secretary of the Rhodes scholarship trust, last night announced selection of five Rhodes scholars for present and former members of the service or in war work.

They include: J. W. W. Graham, Weyburn, Sask., B.A. honors in political science and economics, now attending the law college in Saskatchewan. He is a former naval officer.

Victor E. Graham, Calgary, third year in honors in modern languages and classics, University of Alberta. From 1942-43 he was engaged in war work in the National Research Council.

Other scholars are: J. W. W. Graham, Weyburn, Sask., B.A. honors in political science and economics, now attending the law college in Saskatchewan. He is a former naval officer.

Victor E. Graham, Calgary, third year in honors in modern languages and classics, University of Alberta. From 1942-43 he was engaged in war work in the National Research Council.

## Knighted Canadian:

## Says Royal Navy Scientists Kept Ahead Enemy Weapons

By JAMES MCCOOK

LONDON, Jan. 5.—(CP)—Canadian-born Sir Charles Goodeve, who headed admiralty research work during the war, said yesterday in an interview that British naval experts were far ahead in radar, mines and some other naval devices in the war.

BUT THE GERMANS were "formidable technical opponents" in U-boats, torpedoes and all else associated with undersea operations.

Now in the civilian job of research for the iron and steel industry, Sir Charles, a native of New Pawa, Man., said to the Canadian Press he considered the knightship given him in the King's New Year's honours list was in recognition of all the scientists whose work he coordinated at the Admiralty.

Sir Charles, a son of Canon F. W. Goodeve of Winnipeg, said about 1,000 persons in all contributed to the devices that defeated the German "U-boats," many Canadians among them.

A MIDSHIPMAN with the Royal Canadian Navy Volunteer Reserve in Winnipeg in 1927, Sir Charles was a reader in physical chemistry at University College, London, and already noted for his scientific findings when the war broke out in 1939.

As an officer in the Royal Naval Volunteer Reserve he was called up immediately and now has the rank of commander.

Defeating the German magnetic mines was among the first concerns of British scientists, but Sir Charles said the appearance of the first of these mines early in the war was a surprise to the British, who had a magnetic mine towards the end of the First Great War.

"WE GUessed that a German magnetic mine would appear but would not say what it would be like as so varieties are possible," he said.

While Britain fought the U-boats and other German sea weapons, scientists kept an eye on mine developments. By 1941 they had a suction type of mine of the most deadly type, hard to combat, but they did not set it out. A German mine of this type appeared on D-Day and British experts, recognizing the design, had a "valuable" answer to it.

SCIENTISTS in admiralty backrooms dealt with radar, naval engineering, medical research, fire

## New Baggage Cars Have Wider Doors

MONTREAL, Que., Jan. 5.—Up usually wide doors capable of admitting bulky shipments with less handling and greater ease is one of the new features of the 19 modern baggage express cars which will be built for the Canadian Pacific Railway by the Canadian Car and Foundry here for 1946 delivery. W. M. Neal, C.P.R. vice-president of the C.P.R., announced the order.

BESIDES THE EXTRA wide doors these baggage express cars are having a new system of still more efficient heating installed to counteract the intermittent chilling effect from the open doors from time to time for the discharge of passengers' baggage or important express packages.

Designed also with a view to the smoother and easier transport of express contents and baggage, these cars embody the very latest improvements in running gear for advanced service in their field.

Sir Charles visited Canada last year and retains an interest in Canadian affairs. His wife is the former Janet Wallace of Winnipeg. He still speaks like a Canadian, and looks young for his 41 years, although his hair is grey.

**Air Force Officer  
Decorated by U.S.**

WINNIPEG, Jan. 5.—(CP)—Air Vice Marshall K. M. Guthrie, air officer commanding No. 2 command, Winnipeg, has been awarded the Legion of Merit in the degree of officer by the United States government. Announcement of the award was made yesterday by W. H. McKinney, American Consul-General.

Formal presentation of the medal and citation will be made by Mr. McKinney Jan. 11. No. 2 command headquarters. The award was made for assistance given the United States Army Air Force in central Canada.

## Again, Is a Message

# Spain Is a Menace

In This Atomic Age, War Planets Staffed by Nazi and  
Equipped With German Machines Are Still Turning  
Out Robot Bombs and Weapons of War

by Leslie Bain

In a changing world where little attention has been directed to the menace Spain represents in an Atomic Age with German-controlled industries and laboratories. Since we are all too inclined to underestimate our own strength and that of Hitler, it may be a good time to take a long look at the menace Spain in Spain's ability to prepare and execute a surprise atomic attack against our major powers.

attack against the major powers. Having plenty of evidence to substantiate the fact that the Spanish government and knowing that it now represents a real menace to the world, the fact that it has been carrying on blackguardry, it becomes the duty of the world to take action before an accidental discovery makes Spain an all-powerful menace to the world.

Construcciones Aeronauticas S.A.  
produces Heinkel airplanes. Ex-

Explosives and chemicals are manufactured by Fabricacion Nacional de Colorantes Explosivos, Sociedad Espanola de Fabricacion Nitrogenada and Barcelona Quimica y Farmaceutica—all three subsidiaries of the German I. G. Farben Industry. The latter is conducting atomic experiments are also being conducted in greatest secrecy, have recently been reauthorized to cloak

their ownership from Allied investigators.

**THE FINANCIAL CONTROL** of the major industries and chemical plants in Spain is centered in the hands of the directors of the German-owned companies. The German dammy corporation originally organized by the IG, Farben and the I.G. Farbenindustrie (IG Farbenindustrie Gesellschaft). During the last few months of the European war, Germany's foreign trade was dominated by foreign assets, were flown from Germany to Spain. Thousands of tons of goods, including raw materials, were sold by the German parent companies to their Spanish subsidiaries. In March, April, May, and 1945, while Allied armies were hammering German industrial centers,

ties in Spain "legal," the following Canadian Air Force promises that the firms have assigned their basic patents to the Sociedad Financiera Industrial: I. G. Farben, Daimler-Benz, Krupp, Messerschmitt, AEG, Heinkel, Dornier, Bayer, Siemens and the Stinnes group. With these patents in "neutral" hands, continuing research and production of machinery and weapons are

Space prevents the complete listing of German interests in Spain, but the thoroughness with which the Germans have established themselves here is rather startling.

On the day we were again told by our CO that he had just returned from headquarters and was informed that we would be on our way home within two months as a unit. When the two months were up, myself and two other boys were posted

by Dictator Franco. Thus Spain, politically, industrially, financially and militarily is a vassal of the German warmakers.

\* \* \*

**UNDER THESE** circumstances, had we fill out a paper stating whether we wanted to serve in occupation army duties in Germany, while some others were sent home, the rest being posted to different units in England.

and keeping in mind the atomic possibilities, Allied indifference toward Spain is almost incomprehensible. True, we have said some harsh things recently against fascist Spain, but Joaquin Garcia reports a pleasant surprise in the *Revista de Occidente*, Madrid, 1945, that the United States occupation force, Pacific force, or Western Hemisphere, or if we wanted our discharge.

When these papers were called in again enough men had stated their desire to stay as occupation troops

The statement made recently by Hans Doerr, the former military attache of the German Embassy, as follows: "We have nothing to worry about. Too many American capitalists have interests in Farbenindustrie and Elektrizität (meaning I. G. Farben and AEG) for their going to the wall would be a disaster for the Reich."

Those (the Potsdam declaration) are just words, and words hurt no one. There were many words in Geneva, too, against Germany.

against Spain. Unless he declares war upon them, the English and the Americans will never move against Franco, Alles ist schoen. sehr schoen!"

Herr Doerr may turn out to be

WINTER, and the housing shortage, are still with us! No body seems to be able to do anything about either of them. Of course, there are a lot of statistics being published about the number of permits that have been taken out, but unfortunately statistics and permits don't provide very good shelter in cold weather.

THE CHIEF REASON we have a housing shortage, are we told, is because of the shortage of essential supplies. Contrary to the popular belief, it isn't an actual shortage of lumber that is holding things up so much as a shortage of essential materials such as electrical and plumbing supplies and finishing materials of all kinds.

I have been told that one of the chief reasons we haven't got sufficient lumber is that the mills that make these necessities find it profitable to work a full time. Workers would rather work four days a week and pay a small tax than work six days and pay a large one. And employers are quite happy because they are making a much profit as they are allowed by having their

**Dear Everybody Who Helped:**

It was your generous response that made the Canadian Legion First Christmas Tree for Disabled Service-men and women such an outstanding success.

Our objective of 1,000 gifts was far exceeded in the avalanche of parcels that flowed to the Christmas Tree in The T. Eaton Co. Store.

The cash donations to the Not-Forgotten Fund from various organizations, which were passed along to the Legion Christmas Tree fund, far exceeded our expectations.

For these and for the kindness that prompted the presents and cash donations you have the heartfelt thanks of the hundreds of disabled Service-men and women in the various Edmonton Military Hospitals and Institutions, to whom your gifts have brought much happiness.

To the Newspapers, Radio Stations, Program sponsors and especially the T. Eaton Co. and all others who so greatly helped in this worthy project, the officers and members of the Canadian Legion, Edmonton Branch, wish to tender their most sincere thanks for their courtesy and cooperation.

SECOND SECTION EDMONTON, ALBERTA—SATURDAY, JANUARY 5, 1946 PAGE ELEVEN

## Price Increase Of Gasoline, Oil Is Confirmed

Confirmation of the increase in price of crude oil and gasoline was received on Thursday by the oil refiners in Western Canada in a letter from M. W. McCutcheon, deputy chairman of War-time Prices and Trade Board, in Ottawa.

THE LETTER IS TO serve as an opportunity to inform the public and after Jan. 1, 1946, they are to pay an increase in price of 45 cents per barrel for Turner, Valley crude oil over the maximum lawful price that they were authorized to pay for the corresponding grade of Turner Valley crude oil on Dec. 31, 1945.

The letter also states that the two-cent increase per gallon in the consumer price of all grades of motor gasoline, tractor distillate, kerosene and lighting naphtha in Alberta, Saskatchewan and all of Manitoba west of the 96th meridian will be authorized at a later date, and refiners will be advised in due course as to the effective date of the increase.

CYRIL PERRY, RESIDENT manager of the Edmonton office of the War-time Prices and Trade Board, when commenting on the increase, stated that the 45 cents increase per barrel for Turner, Valley crude oil is an incentive to future development of Alberta fields. Prices of crude oil are too low as compared with those in the United States, and this is a factor in the greater development of oil resources in the U.S.

For the two-cent increase per gallon in the consumers' price, Mr. Perry says, "It is unnecessary."

## Want Union Jack In Canadian Flag

A demand that the Canadian government must not recognize officially any flag which fails to display the Union Jack as the symbol of the Dominion's place in the British Commonwealth of Nations has been made in the form of a resolution passed by the Edmonton branch of the Canadian Protestant Association. It was learned Saturday.

IN THE PRESENCE of the branch, presented before the branch by Edward Brice, local barrister, it is pointed out that the Red Ensign "by custom and usage" is Canada's national flag. It is respectfully requested that the Dominion and give recognition to Canada's part in the Commonwealth by displaying the Union Jack in the upper corner.

A second resolution, following the same preamble, calls upon His Majesty's government to give official recognition by an act of parliament to the Red Ensign as the Canadian flag. The resolutions were passed unanimously by the Edmonton branch.

## Victim of Shooting May Lose His Leg

High Alexander Adams, Fort Frances, Ont., wounded in a shooting affray in a downtown cafe here New Year's morning, may lose his leg as the result of complications which have arisen in the healing of the thigh wound, according to hospital authorities.

ALBERT L. SANDS, special constable, faces a charge of wounding after he allegedly fired his revolver twice during the fracas, one of the bullets lodging in Adams' leg. He will face trial when he is released from hospital where he is under treatment for injuries sustained in the fracas.

## 3 Passengers, Driver of Bus Hurt in Crash

Three passengers and the driver of city trolley bus received minor injuries Friday afternoon when the bus collided with a truck loaded with lumber driven by Sieve Soliski, 820 Jasper avenue at the intersection of 96 street and 100 avenue.

ACCORDING TO TRAFFIC reports, Soliski was travelling east on 96 street and was crossing 96 street with a load of lumber at the time of the impact. The truck driver stated that he was nearly through the intersection when he felt an impact on the right side of his truck.

Driver of the bus, Norman Guild, 1184 77 street, stated that he slammed on his brakes as soon as he saw the truck but struck the rear end of the loaded vehicle. The right rear wheel of the bus was torn off.

Miss Helen Carr, 10669 96 street; J. A. Cole, 11225 96 street; and Fred Kuehn, 10669 96 street, passengers in the bus, all suffered bruises and minor cuts. The driver suffered a cut on his right arm.

IN A SECOND ACCIDENT involving a street railway system vehicle Friday afternoon, a car driven by Walter Kallak, 1442 96 street, was badly damaged when struck by an east-bound street car between 120 and 121 streets on Jasper avenue. The car was badly damaged and skidded on the icy pavement and slid across the street car rails, directly in front of the tram.

Six cash prizes will be awarded to competitors who enter on top in the cream competition sponsored by the Alberta Dairy Farmers' Association, it was announced Saturday. The association meets in convention at the Macdonald hotel in Edmonton.

RULES OF THE COMPETITION require that either a three or five gallon can of cream be submitted, must have a minimum of 100 lbs. of cream samples must be properly sealed and tagged to one of the following Edmonton creameries: Edmonton City Dairy, Northern Alberta Dairy, Pool, South Edmonton Creamery, and the Alberta Dairy Farmers' Association.

THE COMPETITION is OPEN to all cream shippers in Alberta and no entry fee will be charged. Entries must arrive by 9 a.m. Friday, Feb. 8, but if any shipments arrive a day or so early they will be placed in cold storage until judging commences.

All cream will be purchased by the creamery receiving shipment, and payment will be made at current market prices according to grade and butterfat content. The butterfat content as determined by the judges will be used as a basis of payment. All entries should be properly sealed and tagged and will be deducted from the value.

IDENTIFICATION MARKS will be concealed or removed before the judging commences.

THE INQUIRING Reporter  
THE QUESTION  
What do you think of the provincial government's decision to transfer the fur branch from the department of lands and mines to the department of agriculture?

THE ANSWER  
HARRY SAVAGE, clerk: It appears to me that this is a good move. The fur industry of the province is growing, and the rearing of fur-bearing animals can only be classed with the livestock industry of the province. The department of agriculture seems the logical place for the governing fur branch to be administered from.

WILLIAM FRASER, bookkeeper: For brevity of jurisdiction over the fur industry in the province to the department of agriculture will be beneficial, and progress made by Hon. N. E. Tanner, minister of land and mines, in the reorganizing of the industry should be cordially received.

Community Meet  
Eastwood Community League will hold its regular monthly meeting in the hall at 8 p.m. on Monday, Jan. 14. The Rev. A. Schrag will be chairman.

KNOCK ON WOOD!  
The custom of knocking on wood following boisterous remarks comes from ancient tree worship, when trees were supposed to be the abiding places of friendly and protective spirits. Knocking on the tree communicated them to the user.

## United Farm Women of Alberta To Hold Convention in Calgary

### WILL PRESIDE

The United Farm Women of Alberta will hold a convention in Calgary which opens on Monday with a social evening for all delegates and visitors, men and women, in the Labor Temple. Sessions will be held in the Palmer hotel.

Tuesday there will be joint sessions with the United Farmers of Alberta. Wednesday morning the official opening will take place followed by election of a chairman, appointment of committees; the executive report by Miss Molly Campbell, report on women in post war reconstruction by Mrs. A. M. Peters, women's resolutions report on agriculture and reconstruction by Mrs. P. Powell, convener; report on education by Mrs. N. D. Lehman, convener; report of directors; adjournment to the UFA convention for election of the UFA president.

In the afternoon there will be roll call; report on health by Mrs. George Inglis, convener; Miss Helen Magill of the program division of Women's Interests of CBC in Winnipeg, will be a speaker; report on social welfare will be given by Mrs. V. C. Plint, convener; report on the discussion by the Council of Child and Family Welfare.

A W. C. Taylor, convener will give a report on education on Thursday, followed by discussion and resolutions. Mrs. Arthur Tuckwell, secretary of the Alberta Adult Education Council, will give an address; dress; there will be the election of president and vice-presidents. In the afternoon junior officers will be introduced; Miss Campbell will report on the young peoples work; Miss G. G. Plint, convener; dress; directors will be elected.

Friday morning Mrs. M. Stetson, convener, will give a report on legislation; J. E. Brownlee, convener, will give a report on the status of women; Mrs. W. L. Barker, convener will present the report on co-operation.

In the afternoon Mrs. Bella Lujan, convener, will give a report on the work of the United Farm Women; Mrs. Arthur Tuckwell, secretary of the Alberta Adult Education Council, will give an address; directors' reports and unfinished business.

Much of the jewelry, he said, has been particularly designed for North and South American markets and all for export since "unfortunately the 100 per cent tax on jewelry will make it too expensive for many a jewelry centre."

HE ADDED that since the gem came from Africa, Burma, India, Australia, Ceylon, Borneo, Guinea, and New Zealand, the gold from Africa, and the platinum from Canada, all parts of the empire would profit.

Among pieces displayed was a three-dimensional diamond bracelet worth more than 2,000 separate stones in flexible settings, which he said probably will sell for about \$2,500 (\$2,500).

Watch faces were slanted in elaborate jeweled settings or held under the diamond centre of ruby and emerald flowers. A pink gold bird of paradise with diamond emerald and ruby plumage perched on a white and green gold flower pin with a ruby centre.

HE ADDED that before the war, earring designs had reached the point where some "almost cut the cheeks" and said that plans were to "take up where we left off."

Most of the brooches and clips displayed could be broken up into two or three pieces, or worn together, since the jeweler said "any-

## Lorne Cole Takes Bride

The wedding took place at Knox United church on Jan. 2, of Miss Norma Bessie MacKay, daughter of Mr. and Mrs. N. A. MacKay, of Fort McMurray, Ont. and Sgt. Lorne Gray Cole, RCAF, son of the late Mr. and Mrs. G. H. Cole, of Edmonton.

The Rev. Sigis G. Turnbull officiated. The bride wore a two-piece white ensemble in a turquoise and white tulle and veil and carried a bouquet of white and pink flowers.

Matron-of-honor, Mrs. L. R. Atkinson, of Edmonton, was dressed in black tulle, with a black and white dress, and a corsage of pink roses.

A RECEPTION to immediate relatives and friends was held at the home of Mrs. E. C. Perry, the bride's mother, at 1101 St. James street, and continued until 11 p.m.

THE COUPLE is spending a honeymoon in Edmonton and after which they will leave by plane for Regina, Sask., where they will be joined by the bride's father, Mr. and Mrs. V. C. Plint, convener; report on the discussion by the Council of Child and Family Welfare.

A W. C. Taylor, convener will give a report on education on Thursday, followed by discussion and resolutions. Mrs. Arthur Tuckwell, secretary of the Alberta Adult Education Council, will give an address; dress; there will be the election of president and vice-presidents.

In the afternoon junior officers will be introduced; Miss Campbell will report on the young peoples work; Miss G. G. Plint, convener; dress; directors will be elected.

Friday morning Mrs. M. Stetson, convener, will give a report on legislation; J. E. Brownlee, convener, will give a report on the status of women; Mrs. W. L. Barker, convener will present the report on co-operation.

In the afternoon Mrs. Bella Lujan, convener, will give a report on the work of the United Farm Women; Mrs. Arthur Tuckwell, secretary of the Alberta Adult Education Council, will give an address; directors' reports and unfinished business.

## WILL RECEIVE AT TEA FOR GRADUATES

## To Honor Graduates

The Faculty Women's club will hold a tea in the Senate chamber of the University of Alberta Saturday afternoon following the special convocation of the dental and medical students. Guests will include members of the graduating classes, their immediate families and members of the university staff.

RECEIVING guests will be Mrs. Robert Newton, wife of the president of the university; Mrs. Frank Ford, wife of the chancellor; Mrs. J. C. Over and Mrs. Scott Hamilton.

The tea table will be decorated with call lilies and red roses, lighted by white tapers. Seating at the tea will be Mrs. W. P. Calhoun, Mrs. T. P. MacDonald, Mrs. Hastings McWhorter and Mrs. Richard Procter.

CONVEYERS WILL assist in serving the guests include Mrs. F. G. Fraser, Mrs. T. Hawker, Mrs. J. K. Hendry, Mrs. J. K. Hendry, Mrs. J. K. Ward, Mrs. E. F. Donald, Mrs. J. E. Jones, Mrs. W. S. Anderson, Mrs. W. E. McKenzie and Mrs. R. H. Horner.

Conveyers are Mrs. Hector McLean and Mrs. Kenneth Hamilton.

Mrs. Neilson Is President

Mrs. A. Neilson was elected president of the Women's Association of the University of Alberta at the annual meeting held recently in the newly-opened social room.

Other officers elected were: Honorary president, Mrs. K. McMin and Mrs. B. Butcher; past president, Mrs. Eric Wright; first vice-president, Mrs. H. W. Smith; second vice-president, Mrs. H. W. Smith; third vice-president, Mrs. W. J. Simpson; fourth vice-president, Mrs. J. N. Robinson; recording secretary, Mrs. W. H. Keeler; treasurer, Mrs. C. W. Boon; development secretary, Mrs. W. J. Simpson; publicity secretary, Mrs. H. W. Smith; and membership secretary, Mrs. H. W. Smith.

IT WAS reported that during the past year, the usual number of some 100 members had been in the circles, and the WA aided financially by replenishing the kitchen equipment and furnishing the social room, assisted by the Kitchener club. Members assisted at the Stamp Booth in the post office and sold \$56 of stamps in the first eleven months of the past year.

The annual bazaar was reported a success, having made of it enough to help for the year to \$1,172.

It was also reported that 417 parish calls and 66 hospital calls had been made.

Mr. and Mrs. Lewis Cross of New Westminster, B.C. have returned after being guests of Dr. and Mrs. W. W. Cross, Mrs. Cross mother, Mrs. Harry McNabb, of Ponoka, a close and a visitor with her.

Capt. J. P. Rowland has returned to Toronto, where he is stationed at Stanley Barracks, after spending the holidays with his mother, Mrs. H. K. Rowland, and his uncle and aunt, Mr. and Mrs. I. F. Hahn.

MRS. W. Y. ARCHIBALD and her daughter, Anne, of Edmonton, have been guests in Calgary of the former's mother-in-law, Mrs. F. A. Archibald, who they will meet Capt. W. Y. Archibald will arrive in Calgary on Sunday morning. Capt. Archibald served overseas with the RCAF and is currently with the headquarters staff at Appleton, Ontario. He arrived in Calgary on New Year's Day aboard the Mauretania.

## Frances Sophia Berg Bride Of William Merle Carter

At the home of the bride, 1001 91st street, a wedding took place Dec. 29, of Miss Frances Sophia Berg, daughter of Mr. and Mrs. Edward Berg, of Edmonton, to William Merle Carter, son of Mrs. A. Carter and the late Mr. Carter of Coronation, Alta. The Rev. J. P. Berry performed the ceremony.

The bride wore a two-piece white ensemble with matching accessories, topped with a full crown and veil, and carried a bouquet of white and pink flowers.

Matron-of-honor, Mrs. L. R. Atkinson, of Edmonton, was dressed in black tulle, with a black and white dress, and a corsage of pink roses.

A RECEPTION to immediate relatives and friends was held at the home of Mrs. E. C. Perry, the bride's mother, at 1101 St. James street, and continued until 11 p.m.

## Career-Minded Young Women Are Finding Spot in Aviation

Today, more than ever, career-minded young women are finding a spot in one of the modern world's greatest expanding industries—aviation. The opportunities for these young women are many and varied.

Most of the jewelry was in precious stones but the spokesman said he expected, however, free use of semi-precious stones when they are available. Fine blue sapphire, "fruitfully scarce" he said, is fast pushing its way into semi-precious to precious status.

"The trend is away from delicate filigree jewelry," he concluded, "and the modern designer must consider that the decorative effect of jewelry will be judged from a distance, not under a magnifying glass."

THE GIRLS are also given special training in the development of poise and personality, good grooming and voice technique, all regarded as essentials in any aviation job which calls for ability to meet the public.

Girls who have entered the field of aviation enthusiastically recommend it. For instance, in meeting the people who do a lot of cross-country air travel, they get to know some of the most famous and interesting personalities. They also get an opportunity to travel through the world in uniform and to see a good deal of money in personal clothing costs.

THESE GIRLS have a high sense of "esprit de corps" throughout the range of air line employees, and the girls enjoy being treated as an integral part of the flying business during the occupation.

Aviation will be offering much to the career girl during the coming post war years.

Jap Will Hang

MANILA, Jan. 5.—(AP)—Col. Seichi Ohta, commander of Japanese secret police in Manila during the occupation, was convicted today of war crimes by a United States military commission and was sentenced to death by hanging.

## The Personal Column

MORE than 350 city girls who have acted as hostesses at the American Red Cross club through the past years, will be guests at a farewell tea to be held in the main lounge of the club, Saturday from 4 to 6:30 p.m.

Mrs. W. L. Gibson entertained recently at a festive dinner for her niece, Miss Beatrice McCreath, whose marriage will take place on Jan. 19.

Miss Yvonne Field left Saturday for Montreal, where she is attending McGill University after having spent the Christmas season with her parents, Mr. and Mrs. T. H. Field, of Edmonton.

The January meeting of the Edmonton Girls' Council will be held on Wednesday at Central United Church at 1 p.m. A scavenger hunt party will be held after the meeting.

V. M. Rodger, of Red Deer, accepted a position in Edmonton, and is now making his home here.

Mr. and Mrs. K. E. Rowe, who have been visiting in the city, have the pleasure to announce the birth of a son, born to them at Vermilion.

Ladies' Auxiliary to the Strathcona branch of the Canadian Legion, BSEU, will give a bingo party in the Legion hall, 8108 14th street, Tuesday at 8:30 p.m.

Scottish and English war brides were the guests of the Women's Auxiliary of St. Andrew's Society at a luncheon banquet held at the Strathcona hotel. The guests were welcomed by the Rev. H. D. Stirling, and a McClintock presentation to the King, and D. Stirling was master of ceremonies. Among those seated at the head table were Mr. Stewart, Mrs. A. Geddes, Mrs. H. MacKay, Mrs. J. A. McMillan, and Mrs. E. R. McMillan.

MRS. W. F. BARFOOT, wife of the Anglican bishop of Edmonton, entertained at the tea held at her home this week in honor of Mr. N. John Godkin, wife of the Rev. N. John Godkin, who were married recently in Saskatoon and who will make their home in Edmonton. Wives of the Anglican clergy in Edmonton were invited to meet the bride.

Miss Christina McKay of the University hospital has returned to her duties after spending the holidays with her mother, Mrs. A. McKay, of Inisfail.

Miss Mary Loomay of Edmonton spent the Christmas vacation with her parents, Mr. and Mrs. L. L. Loomay, of Inisfail.

In honor of Mrs. Loris MacKenzie, whose marriage to Frederick C. MacKenzie of North Dakota, is an event of next week, Mrs. MacKenzie was honored at a miscellaneous shower, held recently. More than 30 guests attended and the bride-elect was presented with gifts.

James Houshorough of the University of Alberta, wife of the president of the university, Mrs. J. Houshorough, of Stettin, for the holidays.

Mr. and Mrs. P. H. Jones and daughter, Marguerite, of McLennan, are guests in Edmonton, staying at the Royal George hotel.

Miss M. Clement of Edmonton was a recent visitor during the holidays with her mother, Mrs. A. Clement, of Poplar Grove.

DEMAND FOR PARKETS LONDON.—(CP)—Demand for good-quality parkets among the services is forcing up the price of the lumber families are using. Aiding skyrocketing prices is the fact that the birds are scarce; their import having been banned for years owing to the risk of plague.

# Marked Progress 1945's Scientific Highlights By Canadians Are Reviewed

OTTAWA, Jan. 5.—(CP)—Developments in the use of atomic energy and radar, the design and construction of a plywood tailless aircraft, and the development in many uses for wheat highlighted work of Canadian scientists during 1945, the National Research Council reported yesterday.

**IN A PRELIMINARY report** on work done by its staff last year, the council told how Canadian scientists had cooperated in the development of the atomic bomb.

Work on the bomb had led to the design of a pilot plant for the production of atomic materials and that plant was under construction at Chalk River, Ont. 120 miles northwest of Ottawa.

"A branch of the National Research Council will be established there in association with the pilot plant to carry out research on the application of atomic energy in war and to industry and on the use of its products in research and medicine," said the report.

**THE COUNCIL** said perhaps one of the most interesting projects undertaken was that concerning the tailless aircraft, in which test flights will be made shortly.

Wing span of the model designed by the council staff is 47 feet; the maximum weight on test will be approximately 4,000 pounds. It carries a pilot and an observer and dual controls are provided. Primary structure of the aircraft is entirely of wood, embodying a simple laminated spar and a thick moulded plywood skin over conventional ribs.

The aircraft was built in Canada to gain experience with such craft, the subject of intensive research in other countries, said the report.

**RESEARCH** is continuing in the field of radar and demonstrations have been made of a distance indicator which showed the pilot of an aircraft its distance from one or more selected ground points.

The report said: "No designer would today undertake building of a new type of airplane without first checking its performance through wind tunnel tests."

"The council has three wind tunnels—two horizontal and one vertical—on aircraft (pilot and yaw), and a vertical tunnel for problems associated with the dangerous spins can be safely and inexpensively solved."

**IN THE FIELD** of applied chemical research, the council found a "very effective" method of treating aircraft windows to prevent blurring of the pilot's window during a rainstorm.

The slower speed of the method is applicable in its present form, but development work is being continued.

**IN THE field of applied biology,** progress for the production of antibiotics from wheat was advanced to the pilot plant stage. The business of producing from the wheat could be used as the basis for the production of a long list of chemical products.

Methods of preserving food developed by the council were advanced to the pilot plant stage. The business of producing from the wheat could be used as the basis for the production of a long list of chemical products.

**THE REPORT** SAID efforts are being made to find suitable methods of heating houses in Canada.

The council employed with this project are engaged in developing a new method of heating houses by using ceiling radiant heat, and are endeavoring to ascertain the effect of window ventilation on the heat that their floors are heated," said the report.

Much of the work undertaken for the services as a war measure would be continued in peacetime but with industrial and commercial applications to civilian rather than military requirements.

"Research activities must be maintained on a steady basis forward as if Canada is to go forward and hold the place she has gained during the war, as in the industrial nation," said the report.

**TO RETAIN** trained scientific personnel in Canada, conditions of employment must compare favorably with those to be obtained elsewhere. Competition for the United States for Canadian scientists is an ever-present incentive to advancement, and must be recognized by those who would advance themselves or the services which can be rendered by skilled research workers trained in Canadian institutions.

**Ban on Low Fares**  
**Extended by Gov't**

OTTAWA, Jan. 5.—(CP)—Transport Minister Cheverton announced yesterday that the wartime order prohibiting reduced railway fares and almost eliminating air travel, to extend public travel during the shortage of railway cars, continuation has been extended to Feb. 15.

The restriction has been in force since March 1945, and under an order-in-council approved Dec. 13, Mr. Cheverton was given authority to extend the order month by month as required.

**THE MINISTER** said the acceleration of movement of home-coming troops to Canada and United States ports during the next month would continue to tax the facilities of Canada's railway system.

During the period Jan. 15-31, inclusive, approximately 30,000 troops will arrive at Halifax and New York, necessitating the use of approximately 800 railway cars of various types to move them to their homes.

**ANCIENT ROCK PAINTINGS**  
EDMONTON, B.C.—(CP)—On a cliff face in the Shuswap district of British Columbia, near Vancouver, are paintings of human figures, mostly of children and pig-like creatures, which are believed to be of prehistoric origin. This discovery is believed to be of great interest in archaeological circles.

# Hun Prisoners' Return to Home Yet Unsettled

OTTAWA, Jan. 5.—(CP)—The return of 30,000 German prisoners-of-war being held in Canada to their homes, concerned some officials in the United Kingdom were studying the question of when to start the West coast of their journey home, but added the decision hinged on a number of factors, including the shortage of transport.

**SPOKESMEN** SAID British and Canadian officials in the United Kingdom were studying the question of when to start the West coast of their journey home, but added the decision hinged on a number of factors, including the shortage of transport.

They recalled that Defence Minister Abbott told the senate finance committee during the last session of parliament the Germans would remain in the Dominion throughout the winter and that their movement back to Germany would not start until the spring at the earliest.

**ONE DIFFICULTY** presumably is the danger entailed in returning the Germans to their homes during a winter or spring when food is desperately short and every additional mouth to feed works hardship on those in the immediate vicinity.

Thus, by remaining in Canada the prisoners will be better than their kinsfolk overseas. They receive a good diet, about a half-pint of beer compared with the poor quality of beer available in their home countries, and they are in warm, well-lit camps.

**THOSE WHO WISH** to do so may return to their homes, but are established by seals under international conventions governing treatment of prisoners of war. Some 14,000 of these men who were bending their backs to produce food, lumber and other supplies for the United Nations.

Some of the prisoners have been in the Dominion more than five years.

**THE REPORT** said: "No designer would today undertake building of a new type of airplane without first checking its performance through wind tunnel tests."

"The council has three wind tunnels—two horizontal and one vertical—on aircraft (pilot and yaw), and a vertical tunnel for problems associated with the dangerous spins can be safely and inexpensively solved."

**IN THE FIELD** of applied chemical research, the council found a "very effective" method of treating aircraft windows to prevent blurring of the pilot's window during a rainstorm.

EDMONTON, B.C.—(CP)—On a cliff face in the Shuswap district of British Columbia, near Vancouver, are paintings of human figures, mostly of children and pig-like creatures, which are believed to be of prehistoric origin. This discovery is believed to be of great interest in archaeological circles.

**THE MINISTER** said the acceleration of movement of home-coming troops to Canada and United States ports during the next month would continue to tax the facilities of Canada's railway system.

During the period Jan. 15-31, inclusive, approximately 30,000 troops will arrive at Halifax and New York, necessitating the use of approximately 800 railway cars of various types to move them to their homes.

# Guide to Home Builders

**PEACE AS FOR VICTORY**  
1945 GARDEN POSTER  
Timely in Zones 1 and 2 to March 1, Zones 2 and 3 to April 1.

That big tomato grown from seed sown in the garden, and never moved, will grow faster and more vigorously than plants which are started under protection, and set out in the garden while the plants usually bear first, the direct seeded plants are often not many days behind.

But for early tomatoes, cabbage, broccoli and cauliflower, and for such slow maturing plants as pepper and eggplant, most amateurs would find it wise to start their plants under protection, and move them carefully to the garden when it is safe in order that the harvest of garden-fresh food may begin a few weeks earlier.

**SUPERMAN**

JERRY SIEGEL  
AND  
JOE SHUSTER

WHOEVER YOU ARE, SCRAM! I TOLD YOU I DIDN'T NEED ANY ACROBATIC ACTS FOR MY FLOOR SHOW!

THAT ISN'T WHAT I'M HERE FOR, BURNHAM...

AFTER RESCUING TED HAWKINS FROM A MOB OF LYNCHERS, SUPERMAN PAYS A VISIT TO THE NIGHT CLUB OFFICE OF RACKETEER RAY BURNHAM, WHOM HAWKINS ACCUSES OF FRAMING HIM AND ROY CARSON FOR THE MURDER OF "HAPPY JACK" KENNEDY...

I HAVE INFORMATION THAT YOU'RE ACTUALLY THE KILLER OF "HAPPY JACK" KENNEDY. HOW ABOUT THAT?

LEGGO OF ME, YOU BIG BABOON, OR---

---TAKE THE CONSEQUENCES!!

IT'S A PITY TO RUIN SUCH A NICE LETTER-OPENER!

THE STEEL BLADE!---IT FOLDED UP LIKE AN ACCORDION!

THAT COULD HAPPEN TO YOUR FACE, TOO, YOU KNOW! NOW, LET'S HAVE THE TRUTH ABOUT THAT KILLING!

I DON'T KNOW WHO YOU ARE OR WHAT YOU WANT---BUT EVEN IF I DID KNOW ANYTHING, I'D NEVER TELL YOU--- NEVER!

SORRY YOU FEEL THAT WAY, BURNHAM, BECAUSE---

--- THAT'S GOING TO MAKE IT NECESSARY FOR YOU AND ME TO BECOME PARTNERS---

---IN THAT ACROBATIC ACT YOU SUGGESTED FOR THE ENTERTAINMENT OF YOUR NIGHT CLUB CUSTOMERS!

YIPE! NO MORE!

MORE, YOU SAY? GLADLY! IF IT'S LESS YOU MEAN, SAY SO!

STOP! I'LL TALK!!

TAKE ME BACK!--PUT ME DOWN!--GET ME PAPER AND A PEN!--I'LL SIGN A CONFESION!--ANYTHING!!

SORRY, BUT YOU'LL HAVE TO CONFESS AT THE GOVERNOR'S MANSION! WE'VE ONLY FIVE MINUTES TO SAVE ROY CARSON FROM THE CHAIR!

GET OFF! WE'LL BE KILLED!

SORRY! SHORTEST DIRECT ROUTE TO THE STATE CAPITAL. BESIDES, IT MIGHT GIVE YOU A GENERAL IDEA OF WHAT POOR CARSON IS UP AGAINST!

DANGER  
HIGH TENSION  
20,000 VOLTS!

MEANWHILE, AT STATE PRISON...

SORRY, CARSON, BUT IT'S TIME. READY?

I'M STILL INNOCENT, WARDEN, BUT...YES, I'M READY...

CONTINUED...

## A STRANGER

WHEN snow is covering the ground and the weather is cold, the Teenie Weenie men spend most of their time in the old coffee can which the little folks have made into a Teenie Weenie workshop. A tiny stove made from a 1-inch pipe nipple keeps the place warm and comfortable while the men work. They mend Teenie Weenie furniture and make many useful things for the little tribe.

The Teenie Weenies are never wasteful and they save all sorts of things which most big people throw away. When the men cut up lead pencils for firewood they save most of the lead inside the pencils. The lead is powdered and then mixed with a special oil the Doctor has invented. This produces a fine waterproof paint which is used to cover the roofs on Teenie Weenie houses. It is also used for stove polish, and that is why the Teenie Weenie kitchen stove is always neat and bright.

One cold morning, while the Duncer was powdering lead to make paint and several of the other Teenie Weenie men were busy with odd jobs, they heard the flap of wings followed by a cooing sound outside. The men ran out to find a big pigeon standing before the workshop. The pigeon bobbed its head up and down, and kept up a loud cooing as though it was trying to talk. None of the little men could understand a thing the bird said. Not even the Chinaman, who is very clever in understanding birds and animals, could tell what the pigeon was trying to say. They noticed that the bird kept bobbing its head toward

its feet. Then the Teenie Weenies saw that a metal band was fastened to one of the pigeon's legs, and they could see that the band had made a sore place on the bird's leg.

"What dat band fo?" asked Gogo.

"It's put on by the owner of the pigeon so he can identify the bird," answered the Doctor, as he examined the sore leg.

The Doctor asked for hot water and some bandages. Gogo ran to the shoe house and soon

came back with an acorn shell full of hot water. The Chinaman brought a sheet, and the Doctor gently washed the sore leg, put on some Teenie Weenie salve and bandaged it.

The bird seemed very grateful. It bobbed its head to show its thanks, and then it flew away. The Teenie Weenies wondered why a strange pigeon had come to them for help. They found out later that their great friend, Tilly Titter, the English sparrow, had sent the bird to them.
